## PROFILE INFO

Passionate B.Tech student at PCCoE with a strong interest in technology, innovation, and continuous learning. Eager to explore emerging advancements, contribute to impactful research, and grow both technically and personally to make a meaningful difference in the world.

## EXPERIENCE

Finalist – **Among Us, ARTIMAS**, 2025

Participated in **Adobe India Hackathon**, 2025

Participated in **Brain Dasher, SPECTRUM**, 2025

Participated in **AI for Students** Workshop, Organized by **NXT WAVE**

## PROJECTS

### ► Student Database Management System

A simple C-based Student Database Management System that lets users add, view, search, and delete student records. Data is stored in a file using basic file handling and structures

### ► Clash of Clans Website Clone

- Built a static clone of the Clash of Clans website using HTML and CSS.
- Replicated responsive layouts, typography, and color schemes to match the original design.
- Strengthened skills in frontend development, UI design, and web page structuring.
